

ILM ACADEMY

SIYS/PMET Managed Project
Preparing Students for NEET/JEE

What is NEET/JEE:

Great Initiative taken to help science students to prepare them for NEET/JEE. The ILM Academy project is jointly managed by SIYS and PMET. ILM Academy prepares students for JEE (Engineering Stream), NEET and AIIMS (Medical Stream).

NEET/JEE is a two year program. Students are trained in grade 11th and 12th to get admission in reputed Institutes, Colleges and Universities. Students get coaching at one of the reputed institute with a proven track record of producing results.

JEE Entrance Examination:

Students are trained for IIT admission. The Indian Institutes of Technology (IITs) are India's elite colleges of Engineering recognized worldwide for the technical competency, logical and problem solving skills.

NEET and AIIMS Entrance Examinations:

Exam conducted to fill the seats in various Government and other reputed state and national level medical colleges, for which the competency level and entrance requirements is extremely high. Progress through Education in the face of inadequate distribution of resources and opportunities and apathy in every sphere of Ummah existence, Minority community in India, especially in Gujarat urgently needs to look within itself to bring about change. Education is the best route to enable transformation.

ILM Academy is seen as positive contributors to the Indian society.

ILM Academy Comprehensive Plan:

The vision is not just limited to produce Engineers or Doctors but an evolution of a child towards a better human being and will develop a greater sense of responsibility in them. Selection of students is purely on merit basis irrespective of their Muslak or Denomination.

Average cost per student:

Annual cost is Rs.1,25,000 per year per student and two year cost is Rs.2,50,000 for tuition fee, school fee, books, stationary, transportation, food etc. Students Contribution Students having the means are requested to make a contribution for their food expense only.
